

# International Journal of Electrical Energy

## CONTENTS

---

### Volume 3, Number 1, March 2015

- Voltage Reduction Field Test on a Distribution Substation .....1  
*E. Vega-Fuentes, J. M. Cerezo-Sánchez, S. L. Rosario, and A. Vega-Martínez*
- Modified Controls for DFIG under Unbalanced Voltage for Eliminate Rotor Currents Harmonics Using PI-Fuzzy Controller .....6  
*Hai Nguyen-Thanh*
- Maximum PV Penetration Capacity Evaluation of a Novel Method for Determining LDC Control Parameters of Step Voltage Regulators ..... 13  
*Shunsuke Kawano, Shinya Yoshizawa, Yu Fujimoto, and Yasuhiro Hayashi*
- Dynamic Model Extraction for Speed Control of Induction Motor Driven by a Voltage Source Inverter with Using System Identification Application ..... 19  
*M. Yumurtacı, İ. Yabanova, and Y. Oğuz*
- Optimal Battery Charging Method for Scheduled Power Outage by Calculus of Variations .....28  
*Teruhisa Kumano and Hayato Ikushiba*
- Implementation and Design of Advanced DC/AC Inverter for Renewable Energy .....32  
*Ergun Ercelebi and Abubakir Aziz Shikhan*
- Comparison of Energy Generated on Different Solar Panels, Energy Flow Control and Efficiency Analysis....37  
*Oğuz Yüksel, Karakan Abdil, and Uslu Bahtiyar*
- Optimal Placement of TCSC in Power Market .....43  
*Tran Phuong Nam, Dinh Thanh Viet, and La Van Ut*
- Energy Losses Decrease in Oil Transportation Based on Plant Wide Technology .....48  
*D. Starikov, E. Rybakov, and E. Gromakov*
- Research on Optimization Power Flow with Power Grid under Voltage-Grading and District-Dividing .....52  
*Yude Yang and Liwu Gong*
