

# International Journal of Electrical Energy

## CONTENTS

---

### Volume 3, Number 3, September 2015

Laboratory Verification of Electric Double Layer Capacitor Based Power System for a Simple CubeSat Mission.....	122
<i>Muhammad Alkali, Mohamed Yahia Edries, Mengu Cho, and Arifur R. Khan</i>	
Double Effects Progressive Optimality Algorithm for Optimization of Large-Scale Hydropower System .....	130
<i>Chunlong Li, Jianzhong Zhou, Hui Qin, and Peng Ji</i>	
A Novel Multifunctional Energy Storage System in Industrial Distribution Network .....	136
<i>Tong Wu, George You Zhou, and Jianna Niu</i>	
Load Frequency Control in Single Area System Using Model Predictive Control and Linear Quadratic Gaussian Techniques.....	141
<i>Tarek Hassan Mohamed, Gaber Shabib, Essam Hafez, Mohamed Khamies, and Yasser Qudaih</i>	
Quarter-Hourly Generation Scheduling of Hydropower Systems Considering Peak Saving Demands among Multiple Provincial Power Grids in Central China.....	145
<i>Peng Lu, Jianzhong Zhou, Chunlong Li, Chao Wang, and Li Mo</i>	
Improvement of Frequency Stability in an Isolated Island System by Using Demand Response.....	151
<i>Yuan-Kang Wu and Guan-Ting Ye</i>	
Optimal Scheduling for Energy Storage System Considering Reliability Constraints.....	157
<i>Wook-Won Kim, Je-Seok Shin, and Jin-O Kim</i>	
Practical Impact of Very Small Power Producers (VSPP) on Control and Protection System in Distribution Networks.....	162
<i>Noppatee Sabpayakom and Somporn Sirisumrannukul</i>	
Development and Public Release of Solar Radiation Map for Effective Use of Solar Energy Based on GIS with Digital Surface Model .....	169
<i>Atsushi Shiota, Yuuki Koyamatsu, Kiyotaka Fuji, Yasunori Mitani, and Yaser Qudaih</i>	
Review of Inertial Control Methods for DFIG-Based Wind Turbines .....	174
<i>Yuan-Kang Wu, Wen-Hwa Shu, Ting-Yen Hsieh, and Tung-Ching Lee</i>	
A Negative Single-Input/Multi-Output LED Driver and Its Analysis Method .....	179
<i>Kei Eguchi, Kanji Abe, Sawai Pongswatd, Shinya Terada, and Ichirou Oota</i>	
Particle Swarm-Based Terminal Sliding Mode Control with Grey Predictor of a Single-Phase Inverter for Electric Vehicles.....	186
<i>En-Chih Chang, Kuo-Yuan Liao, and Lung-Sheng Yang</i>	
Inverter Design for High Performance Micro Energy Grids .....	191
<i>Jason Runge and Hossam Gabbar</i>	

Comprehensive Energy Efficiency Analysis of Buildings Based on FP-Growth Association Rules.....	197
<i>Shunfu Lin, Chao Hao, Dongdong Li, Yang Fu, and Xiaodong Tang</i>	
Measurement of Equivalence Ratio Using Optical Flame Chemiluminescence Sensor of Turbulent Diffusion Flame .....	203
<i>Sewon Kim, Changyeop Lee, and Minjun Kwon</i>
