

International Journal of Electrical Energy

CONTENTS

Volume 4, Number 3, September 2016

- Research on Aeolian Vibration of a Conductor Based on Finite Particle Method143
Wenping Xie, Zuyan Zhang, Ningbo Xu, Li Li, Zheng Wang, and Xiaoyu Luo
- The Study on the Vibration and Noise Characteristics Caused by Electromagnetic Force of the Fan Motor with the Offset in the Axial Direction152
Masaki Ogushi, Koki Shiohata, Zhong Yan, Atsushi Taroda, Takako Otsuka, Yasuhiro Ikehara, and Yoichi Kawai
- Stochastic Volt/Var Planning and Operation for Microgrids with Renewables159
Nand K. Meena, Anil Swarnkar, Nikhil Gupta, and K. R. Niazi
- Feasibility Analysis of 100kW Grid Connected PV System: A Case Study at Karachi.....165
Umer Zahid, Muhammad Ihsan Ul Haq, Sidra Zahid, Abdullah Khan, Muhammad Mansoor, and Ahmed Abdullah Khan
- Review: Grid-Connected Inverter with Its Filter and Providing Suggestions for Designing a Transformerless Inverter174
A. Algaddafi, K. Elnaddab, and M. Khoja
- On-Line Monitoring Analysis of Aeolian Vibration of Jiangmen-Tongtangjia 220kV Transmission Line179
Wenping Xie, Tian Peng, Kai Xiao, and Jian Zhang
- Prospectives of Day-Ahead Network Reconfiguration for Smart Distribution Systems Considering Load Diversity184
Praveen Kumar, Nikhil Gupta, K. R. Niazi, and Anil Swarnkar
