

International Journal of Electrical Energy

CONTENTS

Volume 6, Number 2, December 2018

- Overall Voltage Level Reliability and Economy Coordinated Analysis in Distribution Network.....47
Wenxia Liu, Xiaoxing Zheng, Qi Chen, and Pengcheng Xu
- Design and Analysis of Uninterruptible Power Supply Control Technology for Manufacturing Automation Applications.....52
En-Chih Chang, Hung-Liang Cheng, and Chun-An Cheng
- Emission Benefits from the Use of Castor Oil in a Compression Ignition Engine Fuelled with Diesel-Ethanol Blends.....57
Ekarong Sukjit, Somkiat Maithomklang, Natthaphon Trirak, and Niti Klinkaew
- Models of AC and DC Cable Systems for Technical and Economic Evaluation of Offshore Wind Farm Connection.....64
Swann Gasnier, Aymeric Andr e Serge Poullain, Vincent Debusschere, Bruno Francois, and Philippe Egrot
- Comprehensive Education of RES in Rural Karst Area: Sustainable Development of Solar Water Pumping System in Banyumeneng Village, Yogyakarta, Indonesia74
Fiki Rahmatika Salis, Aloysius Damar Pranadi, Rachmawan Budiarto, Fitrotun Aliyah, and Dwi Novitasari
- Blocked and Accelerated Wavelet De-noising Algorithm Based on Data Splitting and Wavelet Analysis in Large Data Environment for Aero-Engine Health Monitoring79
Chuanhao Zhang
- Solar Concentrator Layout Optimization: Metaheuristic Method Solution.....88
Kung-Jeng Wang and Le Duc Dao
- Analysis of Stand-Alone Solar Photovoltaic System for Engine Assembly Line at Manufacturing Factory in Indonesia.....92
Raja Dweyndo Hasintongan Gurning, Iwa Garniwa, and Arum Kusuma Wardhany
