

# International Journal of Electrical Energy

## CONTENTS

---

### Volume 7, Number 2, December 2019

Theoretical Aspects of Risk Assessment in Power Supply System Operation.....	44
<i>Kristina Berzina, Inga Zicmane, Tatjana Lomane, and Sergey Gusev</i>	
MPPT-Based Optimal NNC-hMOGA/BPA for Photovoltaic Water Pumping System .....	51
<i>Rati Wongsathan, Ronnachai Phatchaiyo, and Isaravuth Seedadan</i>	
The Reliability Improvement Strategy of Medium Voltage Distribution Network Based on Network Frame Optimization .....	58
<i>Yanping Zhu, Jianbo Gong, and Xin Sun</i>	
E700XD Portable Doppler Radar Energy Systems Analysis.....	62
<i>Brandon M. Bailey, Torrey J. Wagner, and Jada B. Williams</i>	
Study on Aggregator's Strategy of Controlling Electric Vehicles to Compensate Imbalances in Power Systems Using Reinforcement Learning .....	67
<i>Ryuhei Furuta and Ryuji Matsuhashi</i>
